Toxic Exposure Screenings

As a general matter, there are several types of possible exposures or hazards Veterans may have experienced during their military service, including:

- Air Pollutants
- Radiation
- Occupational Hazards
- Chemicals
- Warfare Agents

ON NOVEMBER 8, 2022: VA will begin incorporating toxic exposure screenings. Every Veteran enrolled for VA health care will receive an initial toxic exposure screening and a follow-up screening at least every five years. Eligible Veterans who have not enrolled will have an opportunity to enroll and receive the screening.

The PACT Act adds **20+ new presumptive conditions.** Learn more online at VA.gov/PACT.

Participate in the [VA Airborne Hazards and Open Burn Pit Registry](#) to help VA better understand potential health effects of exposures and proactively identify health concerns Veterans can discuss with their health care providers for follow-up care.
